Help to look after our protected areas

Around Whitehill & Bordon there are six environmental sites of European importance that require safeguarding. These valuable heathland and wooded habitats, including Broxhead Common and Woolmer Forest, are home to ground-nesting birds and all 12 of the U.K.'s native amphibians and reptiles. Many residents already value these areas but with the rising population, we encourage you to follow designated footpaths such as the Green Loop and to use the new green spaces including Bordon and Hogmoor Inclosures.

Cycling

Cycling is an easy and effective way of getting around. Not only is it a fun, sociable and healthy activity, it can help you save money on fuel and parking costs and reduce your carbon footprint. What's more, cycling in towns is often faster than other means of transport.

The My Journey website gives information on clubs and rides near you, skill sessions, how to maintain your bike and top tips for cycling. Hampshire offers a huge variety of cycling opportunities.
